PRODUCT DESCRIPTION

Astro Tacoma Twin Wall Light

The Tacoma Twin wall light features two glass globe shaped shades mounted to a wall by a beautifully designed industrial style wall mount. The shades and wall mounts are all available in three different finishes. The mount is available in an antique brass, matt black and polished chrome finish, all of which add a touch of elegance to the overall design.

The glass shades also come in three options, a glass, ribbed glass and ribbed smoke glass. The ribbed versions both create a play of reflections on the wall and cast a unique illumination. However, the glass shade adds a simplistic and delicate feature to the product.

This Astro Wall light would be ideal for a hallway, dinning area or even in your bathroom (zone 2 and 3). As the Tacoma Twin emits a beautifully diffused soft light through both shades. This product would look stunning individually but could also be paired or clustered with other lights from the [Tacoma collection](#).
