Designer: Space Copenhagen

Gubi Unbound LED Floor Lamp

The Gubi Unbound LED Floor Lamp, designed by Space Copenhagen, redefines floor lighting with its poetic yet practical design. Inspired by Japanese lanterns, the lamp pairs a delicate fabric shade with a solid marble base, creating an elegant balance between ethereal lightness and grounded stability. Its teardrop-shaped silhouette is reminiscent of a ship's sail, evoking a sense of movement and grace.

Available in two sizes, the Unbound Floor Lamp features a dimmable integrated LED strip discreetly housed within the antique brass arm. This hidden light source enhances the lamp's minimalist aesthetic while providing functional, energy-efficient illumination. The shade can rotate 360 degrees, allowing for adjustable lighting that suits a variety of moods and settings.

Whether used as a standalone statement piece or combined with other sizes for a layered look, the Unbound Floor Lamp adds warmth and sophistication to living rooms, dining areas, or even commercial spaces. Its timeless design invites a sense of calm, transforming interiors into serene sanctuaries.
