PRODUCT DESCRIPTION

Designer: CARA \ DAVIDE

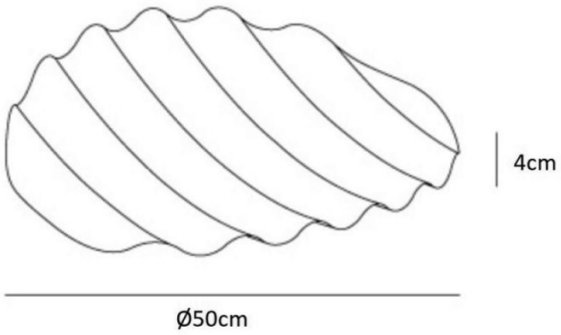

Muuto Wave Tray

The Muuto wave Tray was designed by CARA \ DAVIDE, who used the cultural phenomenon of Scandinavian design to create this graphic yet organic design. The Wave tray is inspired by the undulations of a wave which is represented through a durable stainless steel material and the ebbs and flows of the shape. The designers of this product describe it as a unique shape and understated materiality, the Wave Tray brings elegant rhythm, subtle vibrations and a graphic character into everyday life.

A typically industrial material has been softened by the wave design and would add a statement to any interior. Whether in use or not, the Muuto Wave tray is an elegant design that brings a modern Scandinavian design into your home. A beautiful addition to living rooms, bedrooms, entryways and reception areas.
