PRODUCT DESCRIPTION

Designer: Tom Dixon

Melt LED Chandelier Light by Tom Dixon

The latest addition to the bestselling [Tom Dixon Melt collection](#), the Melt chandelier takes the iconic lampshade to produce a contemporary and innovative suspension. The chandelier is made using polycarbonate with a mirrored finish which turns translucent as the light is switched on. This creates a beautiful swirling effect, creating wondrous colours and hues that will draw the eye.

The Melt chandelier light is available in a small or large size, with the small size made using four shades and the large size made using seven shades. Each version has an explosive and unique look, being useful as a central piece in any setting. The showstopping aesthetic and the effective glow makes this chandelier lamp perfect in many spaces, whether used alone in a small room or in multiple in larger rooms. Available in copper, chrome, smoke or gold.
