PRODUCT DESCRIPTION

Designer: Niclas Hoflin

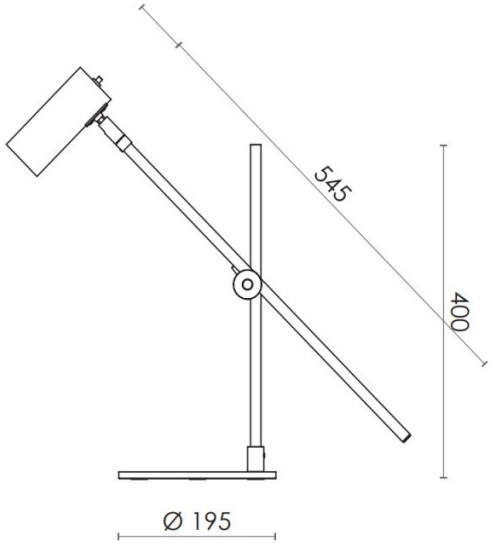

RUBN Lektor Desk Lamp

The RUBN Lektor desk lamp was designed by Niclas Hoflin who was not only the designer of the Lektor collection but also was the founder of the Rubn brand. His mantra that he uses to create all of his designs is *'everything is connected; People, objects and ideas – they all have to work as a unit'*. This mantra was used in the creation of the Lektor desk lamp that has a unique design and five striking finishes.

The RUBN desk lamp features an integrated dimmer and adjustable arm that can maneuver the light upwards and downwards to allow for a directable light for tasks. This light is ideal for acting as a task light at a workspace or reading nook. Stylish and functional, the Lektur desk lamp will add a touch of elegance to anywhere in the home.
