PRODUCT DESCRIPTION

Designer: Mathias Hahn

Marset Scantling Wall Lamp

This simple wall light from Marset is available in a white and black finish that complements any interior. The use of geometric shapes with the use of wood together with metal gives this wall lamp a homely appearance, at the same time as a clearly defined personality. The interplay of the different elements used in its design gives this lamp an archetypal, almost graphic appearance.

The Scantling wall lamp is highly functional and has a flexible system, in which all the movements of the fully rotational shade use ball joints and arms to create a versatile, easy-to-move light. This, paired with the integrated on/off switch, makes this light highly adjustable and can focus light easily and precisely.
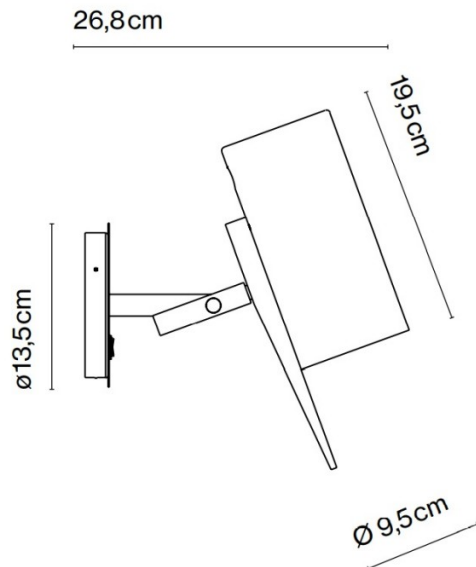

PRODUCT SPECIFICATION
