PRODUCT DESCRIPTION

Designer: Matteo Ugolini

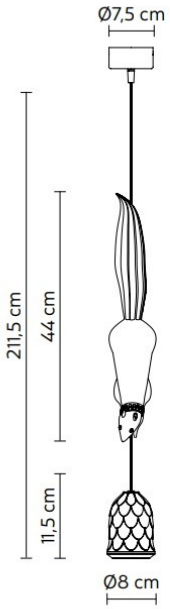

Karman Sherwood e Robin Suspension Light

The Sherwood e Robin Suspension aims to replicate the magic of Sherwood Forest and the 'delightful little creatures' that live there. This creative and curious light was designed by Matteo Ugolini who uses his creations to *'help the human race come closer to that important element we are all gradually departing from: nature'* .

Matteo Ugolini's designs aim to excite the viewer and create emotion within a space. He does this by only designing products he 'truly likes' whilst also maintaining the minimalist white finish that allows for this Karman design to suit any interior. Perfect for hanging above a dining table or bedside, these Suspension lights look striking as an individual but also work well as a cluster. The Robin accessory can be maneuvered up and down the cable and can be positioned as you wish. The Sherwood e Robin Suspension is also available with multiple Robins or without any. This would give you the option of creating a playful cluster of different designs that would bring nature into your space. For more information about different options for this light, please contact us.
