PRODUCT DESCRIPTION

Designer: Luca De Bona and Dario De Meo

Karman Notredame LED Wall Light

The Notredame LED wall light by Karman was designed and created by Luca De Bona & Dario De Meo with the aim of producing an item that would 'stir very old emotions'. With the combination of modern LED lighting and technopolymer material with the gothic cathedral influence, the 'present and future coexist' within these decadent wall lights. Available in a white and gold finish, this design will add a touch of ancient elegance to any space. The newer gold finish creates metallic reflections that add a stunning poetic appearance.

This Karman Notredame LED wall light is also available in a larger size, please contact us for more information.
