PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Foscarini Uptown LED Floor Lamp

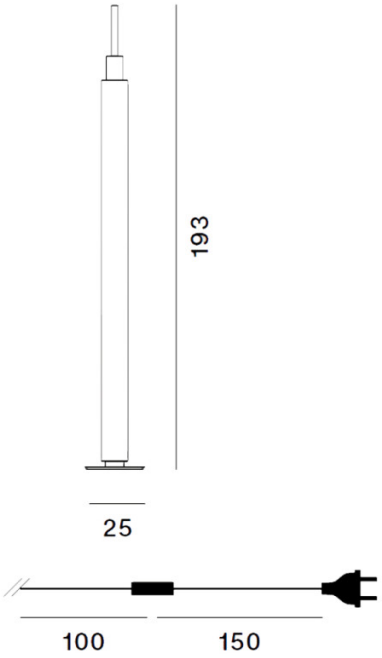

A Ferrucio Laviani design, the Uptown Floor Lamp is definitely a statement piece. An illuminated skyscraper, the Uptown is an ode to the metropolitan skyline and is dedicated to those passionate about design, light and colour. With an explosion of colours, Laviani succeeds in bringing us in awe once again.

Uptown is comprised of three layers of glass plates, in three colours: red, blue and yellow; the three primary colours. Once switched on, the floor lamp creates a stunning effect in the room. The meeting point of each glass plate, laser-cut at a 45-degree angle creates a seamless and transparent effect.

With an in-line dimmer, you can easily adjust the light intensity, and instantly change the atmosphere in any space. Ideal for both residential and commercial settings, the Uptown becomes a focal point and the centre of attention.
