PRODUCT DESCRIPTION

Designer: Daniel Lopez

Marset Ledtube A LED Wall Light

Marset Ledtube A LED Wall Light is a compact, adjustable reading light by Daniel López, designed as a surface-mounted version within the Ledtube collection. The light has an injected aluminium structure and a small tubular head, keeping the fitting small and practical for bedside and task lighting. Its focused beam can be directed where needed, while the honeycomb louvre helps control glare.

The integrated switch is placed in the base, so the light can be turned on and off from the fitting itself. This makes it useful beside a bed, above a headboard, next to a desk, or in a hotel room where a reading light needs to be simple to operate. The adjustable head allows the beam to be moved towards a book, work surface, or seating position, without needing a larger wall-mounted arm.

Ledtube A is hardwired and available in Aluminium, Bronze, Matt Black, and Matt White finishes. The integrated LED gives warm 2700K light, with a controlled beam for reading and close task use. Most suited to bedrooms, bedside areas, headboards, desks, reading corners, hotel rooms, and contract interiors where a compact directional wall light is needed.

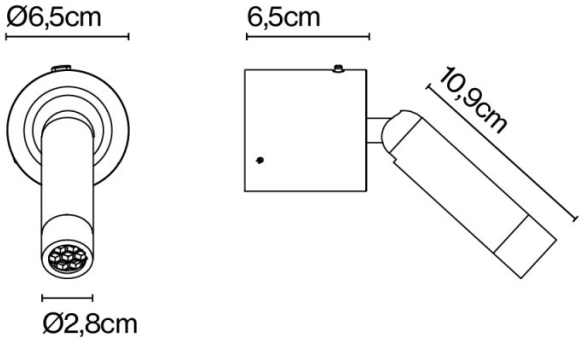

PRODUCT SPECIFICATION

Light Source: 4.25W, 2700K, 131 Lumens

IP Code: 20

Dimming: Integrated on/off switch on the product.

Dimensions: Wall Base: Ø6.5cm
Shade: Ø2.8cm
Depth: 6.5cm
