PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Talia LED Floor Lamp

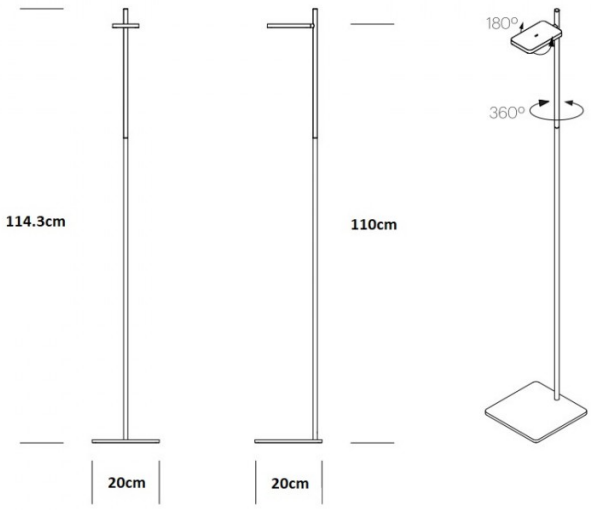

The Talia floor lamp is a simplistic lamp with a complex design. The sleek exterior is available in multiple minimalist colour finishes, including black, white, grey, black with brass, white with silver, and grey with silver. This LED floor lamp by Pablo is multi-task oriented as it has many design features that give the user as much control of the light as possible.

This modern design by Pablo boasts 'maximum light control' with an integrated dimmer switch allowing you to fully dim the light source with ease. The LED flat panel creates a clean bright glare-free light that is ideal for focused tasks, perfect for a reading area or workspace. However, with the 360° post rotation and 180° shade rotation, this Pablo LED floor lamp can satisfy both task and ambient lighting needs.

A common thread in Pablo's designs is the importance placed on sustainable values. This light, and other lights in the Talia collection, is 97% recyclable and can be completely disassembled. This makes these lights easy to fix and gives them a long-lasting quality that allows you to replace any parts without replacing the entire lamp. The LED light source is also highly energy-saving and has a life span of 50,000 hours or 25 years of daily use. However, in order to save electricity, this Pablo floor lamp also comes with a 6-hour energy-saving auto-off timer feature.

PRODUCT SPECIFICATION

Light Source:	6.8W, 3000K, 350 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Height: 114.3cm Depth: 20cm Cable Length: 183cm
