PRODUCT DESCRIPTION

Designer: George Nelson

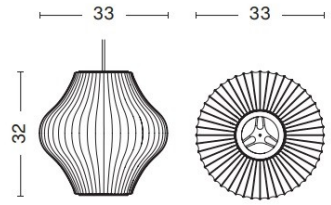

HAY Nelson Pear Bubble Pendant

Designed by George Nelson in 1947, the HAY Nelson Pear Bubble Pendant is part of the innovative **Nelson Bubble Collection.** The series marked a revolution in the Modernist lighting industry, offering an affordable, accessible alternative to its contemporaries. Crafted from a webbed polymer shade over a steel wire frame, the Nelson Pear Bubble Pendant appears lightweight and versatile, creating the illusion of floating in midair.

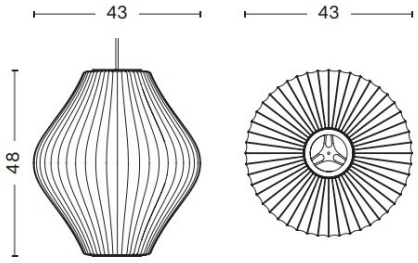

The elegant, curved form offers a sculptural presence, even when not in use. When illuminated, the webbed shade casts a warm glow, making the steel frame more apparent for a captivating contrast of materials. The Nelson Pear Bubble Pendant can be displayed in both residential and commercial settings, its delicate character particularly suiting bedrooms, living areas, and dining rooms. Display individually or in clusters with other pendants from the Nelson Collection to create unique compositions.
