PRODUCT DESCRIPTION

Designer: Pablo Pardo

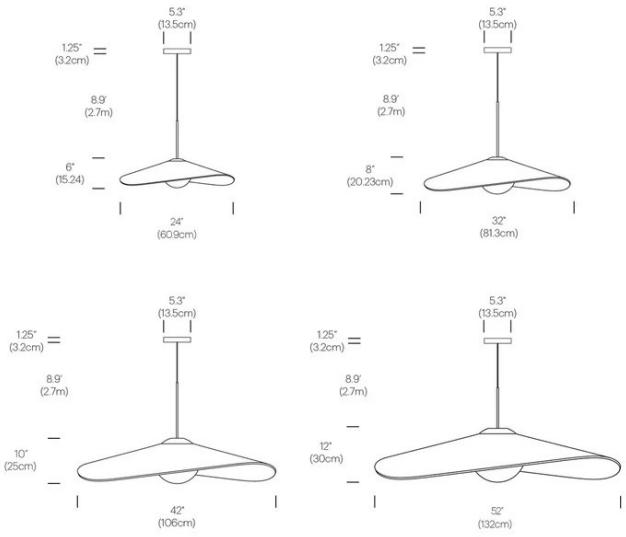

Pablo Bola Felt LED Pendant Light

The Bola Felt Pendant was designed by Studio Pablo, a small group of makers and inventors with a diverse background in industrial design and craft. The studio has a process of design that finds a concept and then refines it and reduces it down to the main principles. This process feeds into the 'less-is-more' philosophy that Pablo designs pride themselves on.

The large wool felt shade features a soft and pliable conical structure with 2 colored layers of undulating wool inside and out. The shade sits elegantly on top of the opaline glass globe diffuser. The woollen shade can be tilted and flexed around the light source, allowing you to focus the light around the room. The opaline diffuser boasts bright, warm and dimmable LED light that can easily fill a room. Ideal for individual hanging or as a cluster, these LED Pablo pendants are a delightful addition to any space. The thick felt shade also offers excellent acoustical properties that make them perfect for over dining tables or social gatherings as they control the sound and create a soft atmosphere.

PRODUCT SPECIFICATION

Light Source:	**24:** 12W, 2700K, 800 Lumens **32, 42 & 52:** 20W, 2700K, 1625 Lumens
