PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Candel LED Portable Table Lamp

The Candel portable table lamp is an elegant design paired with its hardy interior. Once fully charged, using the USB charge provided, the light can last from 10 to 150 hours depending on light intensity. The battery located within the top of the lamp allows for its portability and ability to be placed anywhere indoors and out. This Pablo portable lamp is equipped with a capacitive touch light control that can be used as the 4-step dimmer and on/off switch.

The texture of this lamp creates a tactile appearance and also illuminates a unique pattern on reflections onto the surface it is placed. The design of the lamp with its translucent base creates a sense of weightlessness. This translucent shade also beautifully diffuses a glare-free tinted light that calms any atmosphere. Ideal for indoor-outdoor living and commercial settings for outdoor dining and terraces.
