PRODUCT DESCRIPTION

Designer: Pablo Studio

Pablo Cielo LED Pendant Light

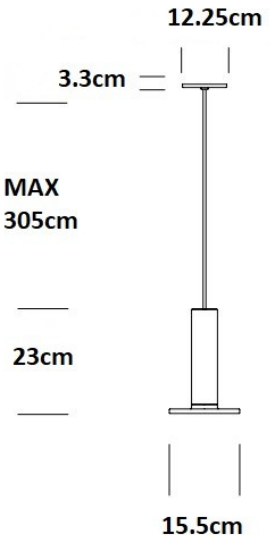

The Cielo LED pendant by Pablo is a sleek modern design that boasts efficiency and brightness. The glare-free, flat panel LED technology used in this shade makes light the main feature of the design. The clean bright LED light easily illuminates every shadow whilst being as energy efficient as possible. The LED panel is 80% more efficient than a comparable halogen light source which is good news for the user and the environment.

The sleek design is available in three finishes, matte black, a satin grey, and plain white with a vibrant blue fabric cable. These finishes all add simplicity and minimalism to a space, the blue cable of the white shade also adds a fun playful touch to any interior. Perfect for bright kitchen lighting of dim atmospheric light, the Pablo Cielo pendant is a stunning addition to a home as an individual item or as a cluster.

This light can be installed on a multiple canopy, please contact us for further information and pricing.
