PRODUCT DESCRIPTION

Designer: Dana Cannam

Pablo Clamp Mini LED Table Lamp

Pablo designs philosophy of 'less is more' is clear through the appearance and design of the Clamp Mini table lamp. The Mini LED table lamp includes a minimal number of parts that enable infinite adjustment. This is a characteristic of many Pablo designs that reduce a design down to its fundamental parts. The adjustability of this Pablo table lamp is endless, the lamp arm can be rotated 360 degrees and adjust its height up to 61cm. The angled stem also allows for maximum reach and directional light focus which adds to the design's functionality over form.

However, the visual appeal of this Clamp desk lamp has not been compromised. The structure is formed of the finest North American hardwoods with an embedded LED strip. The bold red cable also adds a touch of industrial modernism and a pop of colour to the design. Ideal for a task light on a desk or as a stylish bedside table.
