PRODUCT DESCRIPTION

Designer: John August

Pablo Giraffa LED Table Lamp

This small LED table lamp has a lot of personality, the 360-degree rotating head and its angled stem allow for multiple lighting possibilities. The designer, John August, is fascinated by geometric forms and is always in pursuit of the space between art and function. This is clear within the design of the Giraffa LED table lamp which demonstrates the beauty of geometry, precision, and function. This petit Pablo desk lamp casts both direct and ambient light depending on the angle of the shade. Available in two classic finishes, satin black and gloss white, this lamp will easily suit any interior and bring a designer touch to your space.

The glare-free warm LED light has a lifespan of 50k hours and is able to provide a lifetime of enjoyment. The integrated dimmer switch located at the top of the shade allows you to adjust the brightness of the light with ease and precision.
