PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Sky Solo LED Pendant Light

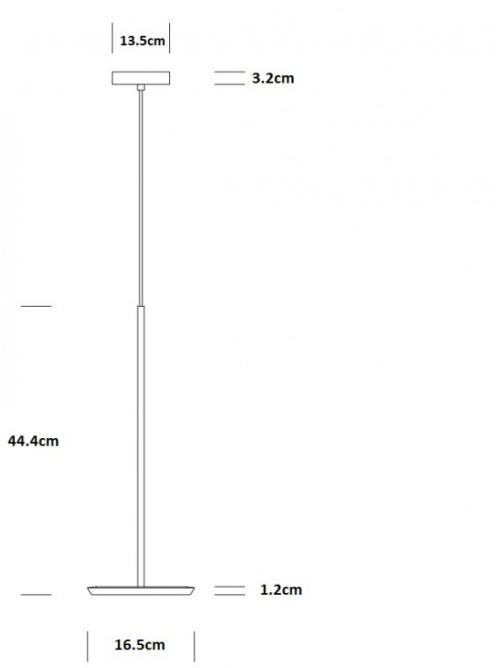

This Pablo LED pendant light was designed by Pablo Pardo with the philosophy of 'less is more'. This simple LED module is stripped back to its fundamental elements and highlights the polished aluminum finish and energy-efficient LED module. Ideal for residential and hospitality settings, this Sky Solo pendant is a stunning feature as an individual and as a cluster.

The Sky Series utilizes a two-sided LED flat panel light source and delivers up to 1250 lumens of dimmable warm light in all directions. This upward and downward light creates soft indirect glare-free light that fills a room with ease. The polished aluminum blends into its surroundings as it reflects the light around it. However, this finish also adds an elegant touch and delicate addition to the space. Ideal for over a worktop or staircase.

The Pablos Designs Sky Pendant can also be supplied as a chandelier consisting of 3 or 5 pendant clusters. Please contact us for further information and pricing.
