Designer: Studio 0405

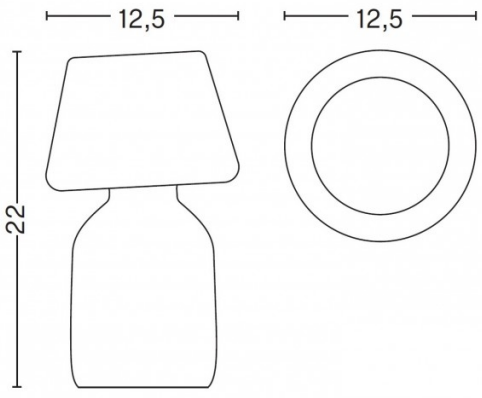

HAY Apollo Portable Lamp

The Apollo Portable Lamp was designed by Studio 0405, a Copenhagen-based design studio known for creating contemporary objects that explore and reinterpret the traditions of design history. This thoughtful approach is reflected in Apollo's soft, classic silhouette, which is updated using opal glass and modern portable lighting technology. The lamp features smooth, rounded lines and a concealed light source, producing a warm, gentle glow that diffuses beautifully through the glass shade.

Finished in simple white opal glass, the Apollo Portable Lamp combines a sculptural appearance with practical everyday functionality. A touch dimmer on the base allows you to adjust the light intensity across three settings, while its portable design, rated IP44, lets you move it easily between indoor and sheltered outdoor spaces. Once fully charged using the included cable, the lamp provides a minimum of 10 hours of illumination, making it a versatile choice for homes, hospitality interiors and professional environments.

PRODUCT SPECIFICATION

Light Source:	1 x Max 3.5W G4 LED (Included)
IP Code:	44
Dimming:	Integrated dimmer on the product.
Dimensions:	Ø12.5cm Height: 22cm Charger Cable Length: 100cm
