PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

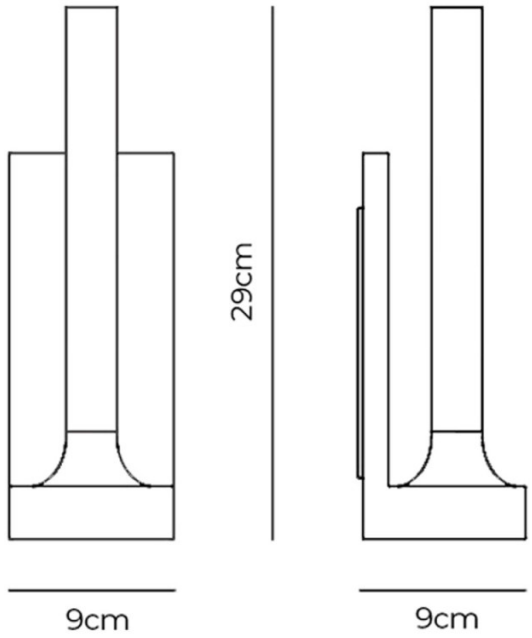

Kartell Goodnight LED Wall Light

The Kartell Goodnight Wall Light is a stylish modern design based on the most fundamental and oldest light, the candle. Designed by Phillipe Stark, the Goodnight is to resemble the warm glow and romantic ambience of a candle. To do this, he goes back to a candle's primary form and creates a highly technical and modern design that can be used individually or alongside the **Goodnight Portable**.

Available in six colour finishes, which are glass champagne, matt titanium, matt white, polished chrome, polished copper, and polished titanium. All of these luxurious colourways add a metallic or monochrome finish to any interior. Ideal for use at bedsides or next to mirrors, these modern candle-inspired Kartell LED wall lights bring a unique designer flair to your space.
