PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Taro Round Adjustable Fire Rated Recessed Light

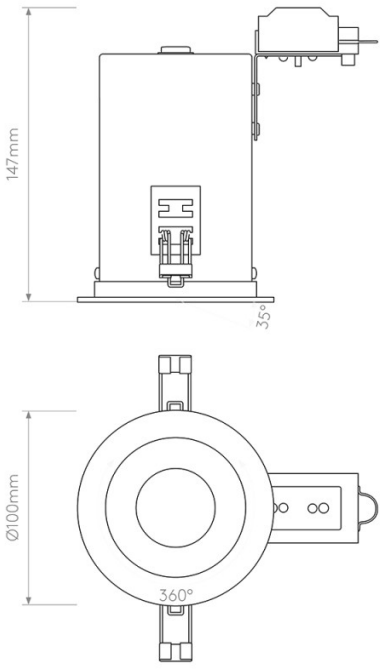

Astro Taro Round Adjustable Fire Rated Recessed Light is a Matt White recessed ceiling light with an adjustable round fitting and fire-rated construction for interior use. Made from mild steel, it sits neatly into the ceiling and gives a simple, practical finish for rooms that need directional downlighting.

The adjustable head gives 15° tilt and 360° rotation, so the light can be angled after installation towards a wall, walkway, work surface, or feature. This makes the Taro Round useful where a standard fixed downlight would not give enough control, such as along a hallway, above kitchen worktops, or in rooms where the lighting needs to pick out different areas.

The Taro Round is wired in, unswitched, and dimmable depending on the lamp selected, with no separate driver required. It is fire-rated to 90 minutes and must not be covered with thermal insulation or mounted in flammable materials. Most suited to kitchens, hallways, living rooms, bedrooms, and interior ceilings where adjustable recessed lighting is required.

PRODUCT SPECIFICATION

Light Source:	1 x Max 6W GU10 LED Dimmable (Excluded)
