PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

Louis Poulsen VL Studio Wall Light

The VL Studio wall lamp was designed by Vilhelm Lauritzen in the 1940s as part of his architectural project for the Radiohuset. The Radiohuset (The Radio House) was the headquarters for the Danish Broadcasting Corporation based in Copenhagen, and Lauritzen created this wall light to use outside studio doors to signify in red or green whether a recording was taking place. Having since gone out of production, Louis Poulsen reintroduces this light with a fresh perspective.

The VL Studio Wall Light comes in matt black and features a beautiful opal glass diffuser, which conceals the light bulb for a soft and ambient glow. The lampshade is also movable, being able to move 90° to the left and right, so you can direct the light where needed. This wall lamp is perfect for a wide variety of settings, and its small size with effective light distribution means it can be used in rows or alone to suit your needs.

Please Note: This wall lamp comes in either a cable and plug or a hard-wired version, which are both non-dimmable. The cable and plug version will need to be installed near a socket.

PRODUCT SPECIFICATION

Light Source:	1 x Max 3.2W G9 LED (Excluded)
IP Code:	20
Dimming:	**Cable and Plug**: In-line on/off switch included on cable. **Hard-wired**: Non-Dimmable.
Dimensions:	Shade: Ø15cm Depth: 20.2cm Wall Base: Ø9.1cm Cable Length: 250cm
