PRODUCT DESCRIPTION

Designer: Bertjan Pot

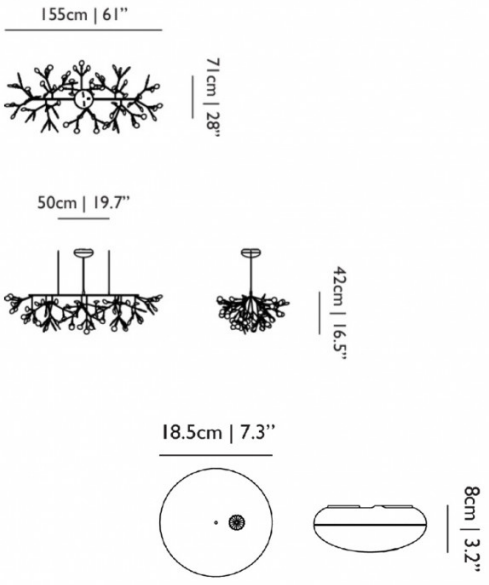

Moooi Heracleum III Linear LED Suspension

The Moooi Heracleum III Linear was inspired by the Heracleum Plant. The suspension, designed by Bertjan Pot, mirrors the plant's branching stems and clusters of flowers. Pot expertly blends mathematics, nature, and technology to create the Heracleum Collection, stating that "the Heracleum is a lot more about math than nature, but somebody else might use it because they're all about flowers. I always like it when there's more than one story about a product."

The 72 LED modules used in the Heracleum III Linear Suspension are powered using Electrosandwich® technology, which was developed by Moooi's founder Marcel Wanders. This method allows many LED lights to be lit simultaneously, while the LED blossoms can be as thin as possible. These carefully considered details add to the elegance of the design while maintaining a clean silhouette. The Heracleum III Linear Suspension is available in three luxurious finishes: Copper, Nickel, and White. Display in an entrance hall or above a dining table to leave a lasting impression.

PRODUCT SPECIFICATION

Light Source:	22W, 2600K, 1872 Lumens
IP Code:	20
Dimming:	Dimmable via Dali or Push to make dimming systems or via the Moooi Wireless Wall Switch (wall switch available to purchase separately upon request). Please consult your electrician, additional wiring may be required on-site.
Dimensions:	Height: 42cm Width: 155cm Depth: 71cm Ceiling Canopy: Ø18.5cm Cable Length: 400cm
