PRODUCT DESCRIPTION

Designer: Jaime Hayon

Parachilna Aballs A II Wall Light

The Aballs A II wall light is a simplistic design that adds a decadent touch to your interior. The ceramic base with a metallic finish, paired with the opal glass shade diffuser creates a juxtaposition that highlights the beauty of each material. The frosted glass, globe-like shade emits a 360-degree diffused light that is not only glare-free but also generous in its outpouring. Available in a selection of metallic finishes, the base can be golden or black. All have a glossy finish that brings an elegant touch to any wall or ceiling.

Designed by Jaime Hayon, a designer known throughout the industry for being at the forefront of a new wave that blurred the lines between art, decoration and design. This is evident in the Aballs collection that uses the contrast of materials and finishes to exaggerate the beauty of the design.
