Parachilna Bai A LED Wall Light

The Parachilna Bai wall lights are a display of quality materials and quality craftsmanship. The wall mounts are expertly made and crafted from aged bronze. This material creates an antique aesthetic that brings an aged and almost industrial feel to this design. However, this Bai A wall lamp was designed with elegance in mind and by pairing this sturdy wall mount with the delicately hand-blown glass shade, the contrast created highlights the elegant form. The glass shades are available in the DI DI shape or the BA BA shape, the first being a smaller spherical and understated shade and the other being a larger elongated version that hangs beautifully from the bronze wall mount.

Each shade houses a LED strip light that resembles the form of a traditional Chinese lantern. The lantern hangs gracefully within the glass shade providing a beautifully diffused light that not only brings light to its surroundings but also highlights the stunning craftsmanship of the glass shades and bronze wall mount. The Parachilna Bai A BA BA wall light includes an added LED light source that brings a level of functionality to the design. As well as the LED strip within the lantern, the BA BA wall light also houses another LED module at the bottom of the lantern. This creates a bright and functional downward light that floods a space with a generous outpouring of diffused glare-free light.

PRODUCT SPECIFICATION

Light Source:	DI DI: Strip LED 5.8W, 2700K, 448 lumens BA BA: 14W, 2700K, 1960 lumens + Strip LED 15.4W, 2700K, 1150 lumens
IP Code:	20
