PRODUCT DESCRIPTION

Designer: Archirivolto

Zile Table Lamp by Luceplan

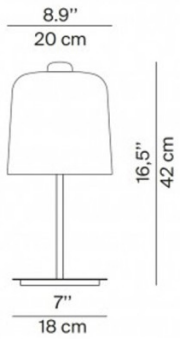

The Zile table lamp was created by the Italian studio Archirivolto, and has sustainability at the core of its design. The table light features a diffuser which is made of a biodurable polymer with 80% renewable sources. The structure is made of steel, matt painted to ensure a long life and a robust design.

The Zile table light emits a diffused glow which points downwards and out, perfect as a beside lamp or for a soft ambient point in the room. Available in 2 sizes and 4 colours, each matt finish provides a subtle and earthly tone, wonderful for use in many design schemes. Use in bedrooms, lounges, reception areas and many more for a simple yet effective lighting solution.

Please note the small size only comes with an on/off switch and the large size only comes with a dimmer switch.
