PRODUCT DESCRIPTION

Designer: Archirivolto

Zile Floor Lamp by Luceplan

A part of the Luceplan Zile collection, the Zile floor lamp features a biodurable polymer diffuser from 80% renewable sources, putting sustainability first in its design. The floor light was designed by Archirivolto, an Italian studio which seeks to make beauty accessible. This is clearly seen in the floor lamp, as it features four gorgeous matt colour finishes which lend a natural yet elegant touch to any interior.

Made from metal for a long lifetime, the Zile floor light creates a diffused glow which spreads evenly in the room. Perfect as a reading light or for creating general ambience, the Zile also features a handy dimmer switch for complete user control. Use in a wide variety of settings for a beautiful and functional luminaire.
