Astro Aquina Wall Light

The Astro Aquina Wall Light is a refined bathroom fitting that combines sleek materials with a soft, modern glow. Its design features a clear outer glass shade surrounding a white inner diffuser, held in place by a streamlined metal arm in polished chrome, matt black or brass. The layered glass creates an elegant light effect, diffusing brightness evenly across the space.

Rated IP44, the Aquina is perfect for bathroom zones 2 and 3, where it provides both functional and atmospheric lighting. The fitting can be installed to direct light either upwards or downwards, making it ideal beside or above mirrors where task and ambient lighting are equally important. Dimmable with a compatible G9 LED lamp, it allows adaptable control over the light levels.

With its blend of glass and metal, the Aquina adds a chic accent to contemporary bathroom designs. Its versatile form and soft illumination make it equally suitable for residential and hospitality projects seeking style with substance.
