PRODUCT DESCRIPTION

Designer: Diego Fortunato

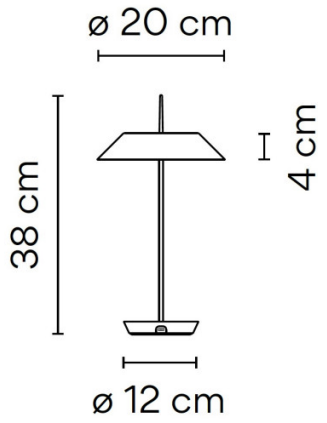

Vibia Mayfair Mini Portable LED Table Lamp

Designed by Diego Fortunato, the Mayfair Mini portable lamp is the latest addition to the **Vibia Mayfair collection** and features a rechargable battery so you can carry the lamp wherever you wish. The Mayfair table lamp is inspired and reworks the silhouette of a traditional 19th century bouillotte table lamp, a light which was created in France to aid players in the popular gambling card game of the same name. The table light features a straight edged lampshade accompanied by a slimline stem for a striking and contemporary look.

Available in warm white, terra red, beige or green, the Mayfair Mini portable table light can be used in a multitude of settings, perfect for homes, offices and commercial settings. The table lamp features a 3-step touch dimmer switch on the base so you can find the right light intensity for your needs and comes equipped with a USB-C charger cable. The portable LED lamp lasts for 6 hours on maximum intensity, 12 hours on 50% intensity and 24 hours on 25% intensity, so you can use around your interior and even carry outside on a dry and still evening for warm and effective illumination.

PRODUCT SPECIFICATION
