PRODUCT DESCRIPTION

Designer: Gregoire de Lafforest

Armen by DCW editions

Armen was designed by Grégoire de Lafforest who was inspired by geometric shapes and mathematical objects. It is a play of shapes, between sphere and cone. The table lamp takes its name from the eponymous lighthouse off the coast of Brittany, in France. Like the lamp's design, the lighthouse has three cones that will beam light in every direction and warn nautical traffic.

You can adjust both light intensity and the colour temperature of the Armen lamp. An inline dimmer allows you to turn the light on and off, or dim the light. Similarly, a switch located on the base of the lamp lets you change the colour temperature from warmest white (2700K) to warm white (3400K).

A stylish and unique design, the Armen light is perfect for any interior space. Whether for your home or office space, the Armen will instantly draw anyone's attention.

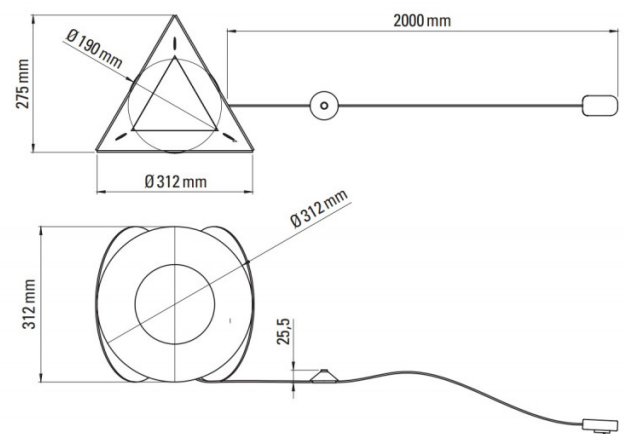

PRODUCT SPECIFICATION

Light Source: 6.1W, 2700-3400K, 610 Lumens

IP Code: 20

Dimming: In line dimmer included on cable.

Dimensions: Ø31.2cm
Width: 27.5cm
Height: 31.2cm
Cable Length: 200cm
