Astro Trimless Mini Recessed Light

Astro Trimless Mini Recessed Light is a petite, simple recessed downlight in a Matt White finish, intended for ceiling installation before plastering. Once plastered in, the fitting gives a clean finish with only the small recessed opening visible.

The small format makes the Trimless Mini useful in tighter areas such as hallways and alcoves, where a larger downlight may not be needed. It can also be used in multiples where several small points of downward light are preferred, keeping the ceiling detail neat across a run or group of fittings.

The Trimless Mini is wired in, dimmable depending on the lamp selected, and requires no separate driver. It uses a 35mm GU10 lamp and coordinates with the rest of the Trimless collection. The fitting is suitable for mounting on flammable materials, but must not be covered with thermal insulation. Most suited to hallways, alcoves, smaller rooms, and new ceiling schemes where a plastered-in recessed light is required.

PRODUCT SPECIFICATION

Light Source:	1 x Max 4W GU10 MR11 35mm LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Fixture: Ø5.1cm Depth: 11.8cm
