PRODUCT DESCRIPTION

Designer: BIG

Artemide Slicing Stem LED Outdoor Floor Lamp

The Slicing Stem Outdoor Floor Lamp was designed by BIG, a studio known for simplistic-looking designs, created to provide better lighting solutions for everyday life. The lamp mirrors the silhouette seen throughout the popular **Gropple Collection**, revised with different dimensions and proportions for a contemporary outdoor lighting solution. Overlapping slats conceal the LED light source for a glare-free, ambient glow. These metal slats also contribute towards Stem's contemporary aesthetic.

With an IP rating of 65, the Slicing Stem is suitable for outdoor use. The downward-directed light can be used to illuminate pathways, while the ambient lighting is perfect for creating a cosy atmosphere in a garden. In commercial spaces, the Slicing Stem Outdoor Floor Lamp suits a restaurant patio, creating an intimate atmosphere with a soft glow that gently illuminates the surrounding space.
