PRODUCT DESCRIPTION

Designer: Herzog & De Meuron

Artemide El Porís Chandelier Light

The Artemide El Poris chandelier was first created in 2007 by Herzog & de Meuron as a temporary solution at a house construction on the coast of Tenerife. The chandelier was truly unique and became such a staple of the house that the owners kept it, being a one-of-a-kind light, until 2020 when the designers brought it to Artemide. The El Poris is a contemporary structure that is sculptural and rigorous in look, made from steel tubes.

The 8 or 12 light sources sit on the concentric steel circles, allowing the user freedom as they can choose which light bulbs to use on the body. The chandelier lamp has a dark finish for a raw and original aesthetic that will look stunning in any interior. The light bulbs create an effective illumination that also creates a sense of intimacy, casting shadows all around as the glow reflects off the metal.

PRODUCT SPECIFICATION

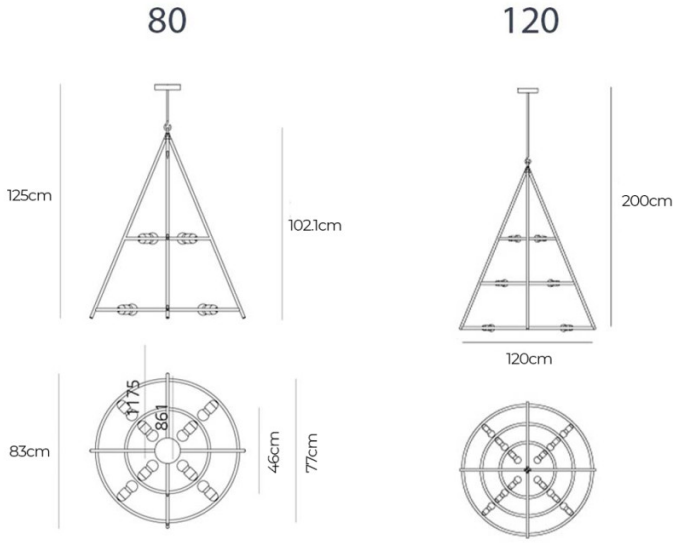

Light Source: **80**: 8 x Max 15W E27 LED (Excluded)
120: 12 x Max 15W E27 LED (Excluded)

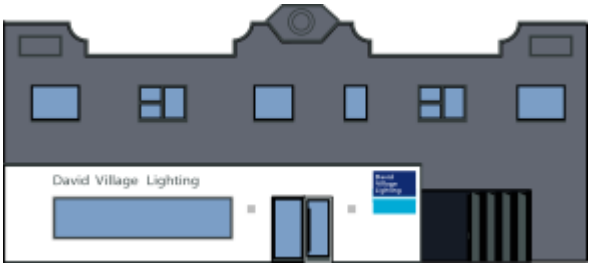

IP Code: 44

Dimming: Dimmable via mains phase dimming.

Dimensions: **80**:
Ø83cm
Maximum Height: 125cm

120:
Ø120cm
Maximum Height: 200cm
