PRODUCT DESCRIPTION

Designer: Edmondo Testaguzza

Karman Abachina LED Outdoor Floor Lamp

The Karman Abachina outdoor floor lamp is a simplistic yet modern interpretation of an exterior lighting solution. The sturdy yet delicate-looking metal frame sits proudly and frames the surroundings behind it creating a beautiful moment that does not interrupt your exterior space. The elegant blown glass spheres are finished with a frosted effect and appear to be suspended within the metal frame when in actual fact they are secured fastened to the structure. The designer, Edmondo Testaguzza, uses research and initiative to 'achieve forms and shapes that should belong to a high aesthetic and suggestive value'.

This Karman outdoor floor lamp is available in simplistic monochrome finishes, white and black, both of which complement their surroundings. The monochrome also allows the lamp to be as understated as you wish and allows for a creative modern aesthetic. The Arabchina LED floor lamp also features a dimming switch on the cable that can be used to create the ideal ambiance for your space. Whether that be light and bright to illuminate a driveway or path or low and atmospheric for those more peaceful areas of your outdoor space. This floor lamp is also available as an indoor and indoor rechargeable version as well as a wall light, have a look at the Abachina collection to explore all the possibilities the Abachina can bring. The Abachina outdoor floor lamp is also available in a larger size as well as with a tray table accessory, contact us for more information.
