PRODUCT DESCRIPTION

Designer: Lars Tornøe

New Works Kizu LED Portable Table Lamp

The New Works Kizu portable lamp is a modern yet classic design that showcases the beauty of marble and light. Designed by Norwegian designer Lars Tornøe, whose work has been described as 'understated yet bold' was awarded Norwegian Designer of the Year due to the sculpted simplicity of his work. This can be seen in the design of the Kizu portable, a simplistic and stunning table lamp that now features a rechargeable battery which gives it the portability that is essential for modern living.

Easily charged up with the included USB-C charger, the Kizu portable gives 10 hours of bright ambient light which can be dimmed using the three-step integrated dimmer on the top of the lamp. Bring an elegant designer touch to your interior by placing the Kizu portable table lamp on a shelf, desk or bedside table.
