PRODUCT DESCRIPTION

Designer: Morten & Jonas

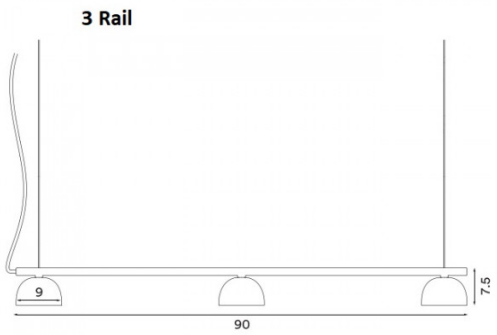

Northern Blush Rail LED Pendant

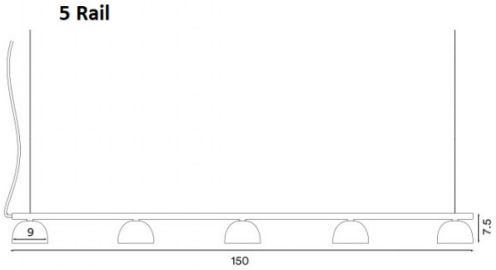

The Blush Rail Pendant was designed by Morten & Jonas for Northern. With just one system, the Blush rail can transform dining rooms, office spaces, or hospitality venues. The steel metal frame gives this light a hardy exterior that brings a simplistic modern style to your home. The shades are fitted with small opal acrylic diffusers that create a clean glare-free light that beautifully provides an area with a downward glow, perfect for illuminating dining tables, desks, and kitchen islands.

Available in a selection of muted finishes that would fit elegantly into any contemporary interior. The monochrome black and white finishes are simple yet sleek and add a touch of luxury to the room. The warm beige finish brings a warm and earthy tone to the space, ideal for those cosy corners of your home. The Blush Rails Pendant is available in a 3 and 5 shade size option, meaning it can be used in a range of spaces, or installed as multiples in commercial bars or restaurants.
