PRODUCT DESCRIPTION

Designer: New Works Studio

Sphere Adventure Outdoor LED Portable Lamp

Please note, the Sphere Adventure is sold in packs of 4. You can select different colour options, for each item in the pack. The price indicated is the price of one unit.

The Sphere Adventure portable lamp is the ultimate outdoor companion. Made from aluminium and featuring a polycarbonate shade, this portable light has an IP rating of 67 which means it is protected from dust, water and impact, being a truly versatile and useful lamp. The shade conceals the integrated LED light source, creating a diffused, warm glow that is controllable by a touch dimmer switch, which has a setting that remembers your last choice of light intensity. The colour temperature also adjusts as you dim the light, emulating natural light at the touch of a finger.

The Sphere Adventure portable light is available in dark bronze, warm grey or deep green and is equipped with a magnetic charging cable that can plug into a universal USB plug adapter. The Sphere Adventure features a beautiful crescent silhouette that reflects nature with its sculptural form and also has a handy strap that allows you to carry or hang the lamp. Use all around your interior or exterior and also use for hikes, days out, picnics and beach trips for when the sun starts to go down.
