PRODUCT DESCRIPTION

Designer: Tom Dixon

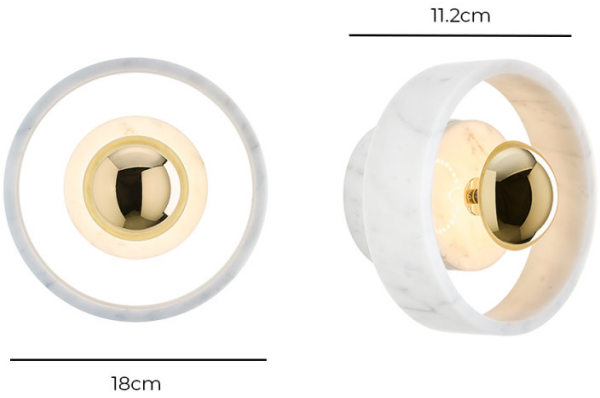

Stone LED Wall Light by Tom Dixon

An elegant way to illuminate a range of spaces, the Tom Dixon Stone LED Wall Lamp features beautiful white marble with warm brass detailing. The materials used reflect classic architecture, harking back to ancient civilisations, whilst also displaying a fresh and modern perspective. The Stone LED wall light has a rounded silhouette and a brass middle which reflects the light source to create a warm and inviting glow. The light also emanates outwards, creating soft concentric circles that play and dance on the wall.

This wall light can be utilised in a range of settings, with an IP44 rating meaning it can be used in bathrooms or ambient task lighting. The atmospheric lighting effect is also a gorgeous addition to kitchens, dining rooms, living areas and even bedrooms. Display the Stone Wall Light individually or in pairs and multiples, depending on the size of your interior. It can also be used alongside other designs in the **Stone Collection** for a cohesive design.
