## PRODUCT DESCRIPTION

**Designer:** Konstantin Grcic

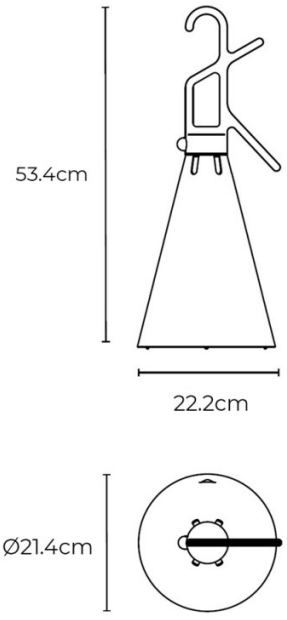

### Mayday Outdoor Lamp by Flos

Designed by Konstantin Grcic, the Mayday Outdoor transfers his **2000 Mayday design** into the outdoors, being a useful and unique lighting fixture. The shade is made from recycled polypropylene, putting sustainability at the forefront of manufacture to create a long-lasting lamp. The outdoor lamp is also easy to put together and take apart, meaning that at the end of its lifetime, it can be easily recycled.

The Mayday Outdoor lamp has an IP rating of 65 to ensure protection in exteriors and features an airtight capsule to cover the light bulb. This not only protects but creates a lovely glow and warm diffusion which emanates from the beautiful white coloured conical shade. The lamp also comes with a practical handle which allows you to easily carry it around and wind the cable up. This handle also allows you to use the Mayday in any way you wish, whether you want to hang it from a tree or have a simple table lamp for your outdoor dining area. Available with a black, leaf green or mustard yellow handle, use in many exteriors for a chic, simple and stylish lighting solution.
