Moooi Serpentine LED Pendant

The Serpentine Pendant was created by Front, a design duo consisting of Sofia Lagerkvist and Anna Lindgren. The pendant features an elegant, airy design, inspired by the twists and turns of paper. The conical forms, made from a non-woven fabric, intertwine to create an intricate shape that gives the appearance of an endless upward spiral. The playful pendant is available in two sizes, allowing you to fill up your space perfectly.

The Serpentine is a decorative pendant, bound to draw the eye even when not in use. When lit, the fabric shade diffuses light evenly for a soft and natural glow, perfect for providing a comfortable ambience in dining rooms, hallways, or offices. Display a single pendant to create a touch of perpetual movement in any space. In larger rooms or commercial spaces, install clusters of pendants for a captivating display that is guaranteed to leave a lasting impression.
