PRODUCT DESCRIPTION

Designer: Joana Bover

Bover Nans M Portable LED Lamp

The Nans portable light is named after the stunning Cala Nans, a Mediterranean cove in Cadaquès that is only accessible by footpaths. The designer, Joana Bover, wanted to create true Mediterranean style with this light, using synthetic fibres that are woven together to produce a natural aesthetic.

Using a wonderful combination of colours, the Nans portable lamp is available in a red or brown finish. The lamp is rechargeable and has a dimmer switch on the top to control the light intensity in three steps. When fully charged, the portable light can last for up to 30 hours on the lowest intensity and can be easily carried around using the helpful handle. Use in many settings for an ambient and soft glow wherever you need it.
