PRODUCT DESCRIPTION

Designer: Joana Bover

Bover Nans M Outdoor LED Portable Lamp

The Nans M Outdoor portable light was designed by Joana Bover, the founder of the Bover designer lighting brand. The portable lamp is named after a secluded cove called Cala Nans, situated in the beautiful Spanish coastal town of Cadaquès. Bover embodies the natural and untouched landscape with this lamp, using synthetic fibre in a woven fashion for an organic and Mediterranean look.

The Nans M Outdoor portable lamp is a rechargeable light that can last up to 30 hours when fully charged and on the lowest light setting. The lamp also features a handy dimmer switch on the top which has three light intensities and its 65 IP rating means it can be used in any interior and exterior. The stunning wooden handle makes it easy to carry around and the woven lampshade is available in either a red or brown colour finish and also in two sizes.
