## PRODUCT DESCRIPTION

**Designer:** GamFratesi

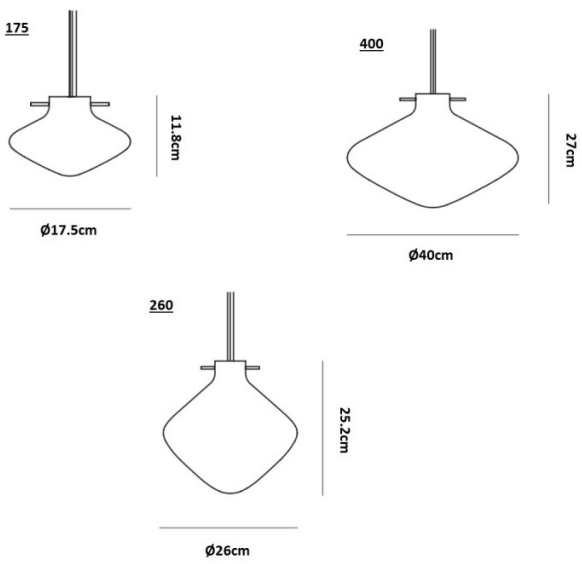

### LYFA Repose Pendant Light

The Repose pendant was designed by Danish-Italian design studio, GamFratesi, who describe themselves as a 'fusion of proud traditions, refined aesthetics, and expressive designs'. This can be seen in the craftsmanship behind the Repose pendant lights by LYFA. With three stunning shapes and sizes to choose from, this pendant light gives you all the freedom to find the perfect style for your space. Whether that be a petite pendant for over a coffee table or countertop or the larger 400 pendant as a statement piece within a room. Each size is available with a black or brass detail that adds a touch of luxury to the design. The designers describe the idea behind this detailing as 'We wanted to provide great importance to the smallest detail of the lamp – the thin pin that passes through the glass shade. An essential design element that holds the shade while creating a serene and suspended feeling of balance'.

The Repose pendants are formed of three thick glossy opaline glass layers that beautifully diffuse the light into the space. This soothing light creates a calming atmosphere, ideal for a bedroom or living space where relaxation is key. The aim for this design was to 'bring serenity of mind' and was inspired by the simplicity and functionality of traditional Japanese hairpins. Place this lamp where calmness is needed, as it is intended to ease your mind and illuminate living spaces.
