LYFA Mosaik Floor Lamp

The Mosaik floor lamp by LYFA is a modern yet classic design that takes the fundamentals of a floor lamp and adds new modern twists to the design. For example, the angle of the conical-shaped lampshade that is attached to the solid brass stem. This shade is a classic shape, however, the angled design means that the light is cleverly directed towards the area of the room where light is needed. The shade also features a small hole in the top that allows for a slither of light to escape. This highlights the simplicity of the design and the thought and care that went into its craftsmanship.

Available in a white and black finish, the LYFA floor lamp also features brass detailing that elevates the whole design and adds a luxury flare. Place this lamp in your living space or hallway to add a stunning modern touch and a functional beam of light.
