PRODUCT DESCRIPTION

Designer: Gonzalo Mila

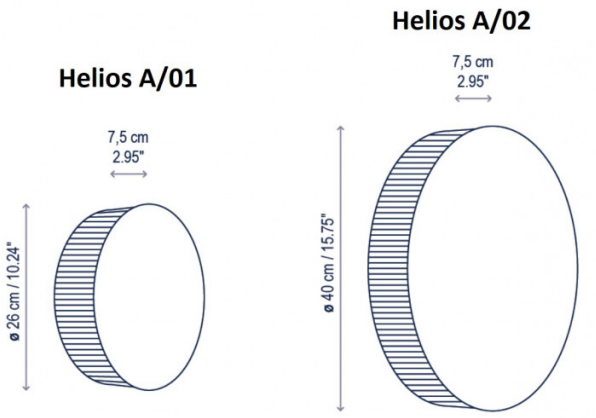

Helios LED Wall Light by Bover

Designed by Gonzalo Milà, the Helios wall light embraces the Japanese aesthetic known as wabi-sabi, a practice that appreciates and accepts the beauty in imperfection. The wall lamp boasts a metal structure, with a front disc that conceals the LED light source. The light then escapes through the irregular cotton thread that creates a beautiful lined pattern on the wall.

The Helios wall lamp comes in an oak brown metal finish and in two sizes, the smaller Helios A/01 and the larger Helios A/02. The wall light is perfect for use as a decorative and ambient light, being best used grouped together in hallways, corridors, living areas and bedrooms. It can also be a gorgeous addition to commercial spaces, such as libraries, restaurants, shops and cafes.
