PRODUCT DESCRIPTION

Alton Ceiling Lamp by Nordlux

The Alton ceiling light is an elegant and refined fixture, embodying the principles of Scandinavian design which is characterised by simplicity and minimalism. The ceiling light is made from a glass lampshade formed into an alluring rounded shape that is simple yet beautiful. This is paired with a chic metal ceiling base that sits subtly on the ceiling.

The Alton ceiling light is available with either a smoked black glass shade with a black base or an opal white glass shade with a brass base. The smoked black glass reveals the light bulb whereas the opal white shade conceals the light bulb for a warmer illumination. Suitable for use all around the house, in the office or in commercial spaces.
