PRODUCT DESCRIPTION

Designer: Rudy Ricciotti

Nemo Lighting Mais Plus Que Cela Je Ne Peux Pas LED Lamp

The Mais Plus Que Cela Je Ne Peux Pas lamp by Nemo Lighting was created after the designer, Rudy Ricciotti, was inspired by the beauty of industrial waste. These steel bars are crafted in the traditional way so that each and every product is unique. From the markings to the subtle details, the steel can create the most stunning natural designs that are the main feature of this lamp.

The light source is placed inside one side of the bar and provides a gentle indirect light when faced towards a wall. The simple LED strip attached to the steel creates a beautiful contrast between the hardy steel metal and the soft light. This industrial aesthetic has become a trend within interior design and this Nemo Lighting Mais Plus Que Cela Je Ne Peux Pas is the ideal way of bringing the industrial trend to your home. Place this lamp on the floor or on a table or shelf, it's sturdy nature allows it to be placed in multiple areas of your space.
