Design For The People Strap Pendant Light

Designed by Bjørn + Balle, the Strap pendant light is an award-winning design, winning the Red Dot Design Award in 2017. The pendant is defined by the meeting of classic and industrial, featuring a conical lampshade that is paired with a sleek leather strap. The shade has clean lines that are typical of Nordic design and the strap adds a touch of rawness to create an interesting aesthetic.

The Strap pendant lamp is available in five sizes and in four different colour finishes, black, opal white, beige and white. The pendant also comes with two straps that are black and brown included in the purchase, so you can choose the right colour for your space or even swap between the two as tastes change. The pendant lamp is best used over tables and surfaces as it emits a downward directed light that is effective and spreads out.
