PRODUCT DESCRIPTION

Designer: Bernhard Osann

Nemo Lighting Fox LED Wall Light

The Nemo Lighting Fox wall light is a minimalist but modern design that features a small honeycomb filtered spotlight on a long flexible steel arm that is attached to the wall. This design is simple and can be placed above a desk space, dining area, or a cosy corner of your home that needs a touch of atmosphere. The Fox collection by Nemo Lighting is timeless and with its sleek black steel finish it can add luxury to any space.

The overarching steel arm is an impressive design feature that gives you an overhead light from a wall lamp. The bright and glare-free spotlight features a honeycomb aluminium filter that keens the light bright and direct without adding glare to your home or commercial space.
