PRODUCT DESCRIPTION

Grant Wall Light by Nordlux

The Grant wall light is the perfect combination of current and classic ideals, featuring an on-trend glass sphere and a simple curved metal structure. The opal white glass creates an elegant aesthetic, whilst the metal structure provides a modern touch with a dramatic contrast between materials. The shade conceals the light bulb, creating a diffused illumination that is soft and ambient.

The Grant wall lamp comes in either a brass or black colour finish and has a small size, perfect for use in multiple for large spaces or alone in smaller spaces. The wall lamp can be used to create a warm atmosphere as well as providing a useful glow in your interior. Use in many types of settings for a refined and graceful look.

Please note, this wall light comes with a cable and plug so needs to be installed near a socket.
